The Journeyman Tailor Cutters, and the cause of it.

The Journeymen have hitherto worked up to March 10, 1854.

With the increase of the price of the necessaries of life, and consequent increase of the price of labor, we find it necessary to make a reduction of provisons and other articles.

We will now daily wages from \$2.25 to \$2.50. This sum, per day, the houses can pay to any man competent to do a fair day's work.

And there is a list of book of price paid by the person, to any good man, or person, the employee may consider and compete for the same.

When we informed our late employer of the demand, they would not accede, until such time as the journeyman should, in their opinion, have introduced to our master before.

Please press copy.
